

FACTSHEET : Need for Medication Prompting/Supporting Medication Compliance

Medication is a high-risk area, which may have other affects on people if not taken timely.

Medication will not only alleviate symptoms but continue to help them over duration of time.

There are several ways in which the management of medication can be supported through medication reminders, prompts, etc.

Telecare Services options that may be suitable:

- A) Electronic Dosette Reminder Box
- B) Digital Medication Reminder Watch (available with vibrating function)
- C) Medication dispenser with audible and visual alarm (maximum 8x, “TabTime Super 8)
- D) Daily Medication prompting calls from a 24hr monitoring centre
- E) Automated Medication Reminder Messages (Voice or Text) to landlines and mobiles, up to 4x daily.
